

Principal's note:

Kia Ora Parents and Whanau,

A sincere thank you to you all for the welcome I have had this term to Salford School. I am enjoying getting to know the children and you all too, and look forward to working with you to enhance the learning opportunities available here at Salford School.

The term has been busy with much success for the children in a range of avenues -Jump Jam, Cross Country, Chess, Tri Nations, extra curricular sports and of course in day to day learning and within the school values as well.

This week is an opportunity for you to come and find out from the teachers and your children about their classroom successes and next learning steps. I strongly encourage you all to make time to do this. The children value your interest in their learning and it makes a difference when we are all working together, child(ren), parent(s) and teacher(s).

Please note that school finishes at 2:00pm on Wednesday to allow for learning conferences to take place. Minimal supervision will be available between 2:00 and 3:00pm but it would be appreciated if children could be collected at 2:00pm. Children attending After School Care will proceed to the Hall at 2.00pm.

On Friday 21st June we had 13 students represent Salford School and the Phoenix Zone at the Southland Primary School Cross Country Championships. Congratulations to Baxter, Henry, Cody, Taylah, Madison -Grace, Do-ha, Will, Louis, Isimeli, Madison, Angelina, Kezia and Eva who competed fiercely in very muddy conditions. The top placings for Salford School were Cody in 14th, Will in 22nd and Madison in 23rd for their racing groups. Rawa atu!

Last Wednesday we had our annual Tri Nations Tournament against Windsor North and Waihopai Schools. Thank you to all the family and whanau who came to cheer and support the teams. The event resulted in a three way tie with each school winning a code. Congratulations to Hallie (coach) and the Rugby team for winning the rugby event. Well done to our Netballers and two soccer teams who competed well in the competition, developing skills and showing growing strength. We will have some very strong contenders for the competition next year. Thank you to Mrs Dawson, Hallie and Nic Wills for coaching the teams.

Congratulations to the Kapahaka Roopu for their commitment over the weekend at the Matariki Festival in Esk Street. It was a great day of activity and school presentation. Our tamariki were superb despite the cold and performed with pride. Thank you to Miss Smithies and Sharne for their work with the children in preparation for this event. Well done to all of the children who braved the cold - we were all very proud of you!

This week our senior classes will have their Speech Finals to find the representatives for the next level (zone competition) to be held next term. All the best to the children who have qualified from their class events. Miriam McKenzie from 'Strictly Speaking' will be judging with Mrs Gibbs. Miriam is a teacher, speech teacher, author and she also runs speech and performance programmes for children.

Our PB4L (Positive Behaviour for Learning) focus for the last two weeks has been language. Praising, complimenting, using our manners and ensuring that nice words are being spoken to and about each other. We have also discussed that telling the truth is a part of respectful language as well. It has been great to hear so many students acknowledging effort and achievement in others through their words and actions particularly when it has been an area of challenge for the child to achieve. We will be continuing to nurture this positive behaviour in week one next term as well.

The junior syndicate is looking for LOOSE PARTS. Tyres, inner tubes, PVC piping, rope, pieces of wood etc that can be used for children to move around and be creative with. The purpose is to encourage imaginative play, creativity, team work, collaboration and to provide another resource for play. Have a look around during the holidays and we will start collecting during the first week of term 3.

Thank you for your continued use of the After School programme. We please ask that you maintain communication if your child is booked in but arrangements have been changed. A number of times this term we have been searching for children only to find they have been collected from the classroom. This is quite distressing.

Please do let us know if your child is not going to be at After School Care when they have been booked in. Thank you.

Last Friday we said farewell to Mrs Dawson as she started her maternity leave. She will be missed but we wish her all the best as she begins this new, exciting life journey. Needless to say we are looking forward to catching up with her and the baby in due time.

This week we welcomed Mrs Becky Soper to the Salford team. Mrs Soper will be opening the new entrant classroom in Room 14 (the Library) and is working with Mrs Morris and Miss Paterson as the students begin this week. We also have Miss Daniels who will be teaching in Room 5 whilst Mrs Dawson is on maternity leave starting on Wednesday.

Regretfully we accepted Mrs Roulston's resignation last week. Mrs Roulston will still be part of the Salford team until 18th August and we look forward to working with her right up until then. Her expertise and knowledge will be missed.

On behalf of the staff I wish you all a safe and enjoyable holiday time. We look forward to seeing everyone back at school refreshed and ready for term three and all the great things we have planned (including a production) for the children.

All the best for all of the competitions and events that children are involved in these holiday. We look forward to hearing all about them on 22nd July.

Nga mihi nui

Sarah Gibbs, Principal

ROOM 9

Room 9 are making toys that we can move by using either a push or a pull.

FORCE is a **PUSH** or a **PULL**
Motion is movement from one place to another.

We also explored different ways we could make a ball move. We blew the ball, flicked the ball, pushed the ball, dropped the ball, spun the ball, hit the ball, bounced the ball and rolled the ball. We also made ramps to help us move the ball.

What is a force?

A force is a **push** or a **pull**.

It is an action that can change the **shape**, **size** and **motion** of an object.

REMINDERS

STUDENT LUNCHES

- Daily—Heat-ups - see website.
- **Wednesday**—Subway Orders (Order by 9:00am at the Office)
