There will be small tweaks to the competition in an effort to ensure all players and teams have an enjoyable and competitive games.

Grading Weeks: The first two weeks of competition will be grading. We still need schools to enter their teams into the appropriate grades, but these first two weeks will allow our Development Manager Dan Peck to observe games and work with schools to fine tune grading where required.

Mixed Grades: We will be putting a greater emphasis on schools entering teams into Boys or Girls grades. Our goal is to have a smaller number of mixed teams, with players in boys or girls teams wherever possible (*we do recognise in some schools/situations this may not be a viable option*).

PLEASE NOTE: A Team cannot be registered through to the Sporting Body without a Coach/Manager and therefore parental support is essential to ensure Salford School is represented in these sporting arenas. No coach – no Team (Please circle)
